to the people than Wilson. I should say that the Wilson league without the dotting of an "i" or the crossing of a "t" will not be indorsed. If so it will be a Bryan victory and as both parties will then favor reservations the league will hardly be a clear cut issue, but prohibition may supplant it, if Bryan puts over his dry plank. I hear he wants to be permanent chairman of the convention. If he can achieve that, he may do more. He may be the nominee—who can tell? There isn't anybody apparently whom he can support with quite the enthusiasm with which he can support himself. Aside from the large looming of Mr. Bryan it seems to me that just at present there is a drift of opinion in favor of the selection of Mr. McAdoo for the nominee at San Francisco and Mr. McAdoo is helping the drift along by his utterances in favor of free speech and all that sort of thing. If Mr. McAdoo can get Bryan and has Wilson, he's the candidate. But—let's wait and see!—Reedy's Mirror, St. Louis.

MR. HOOVER'S LETTER ON TREATY RATIFICATION

Mr. Hoover's letter follows:

"New York, May 13, 1920.
"Chester Murphy and O. C. Leiter,
"Hoover Republican Club, Portland, Oregon:

"I beg to reply as follows to your request for my views on various matters arising in the Oregon primaries.

"The President has declared the the Democratic party must demand the acceptance of the league in full as presented by him to the Senate. Senator Johnson demands that the Republican party oppose the league altogether. Two more destructive attitudes toward a great issue could not be found.

"An emergency is created by this alliance of destruction. The aspirations of the great majority of our people will be thwarted by either of these extremes. This majority is fixed in its determination that the United States, both for our own protection and in the interest of the welfare of the world shall join provides for substitution of methods of the league by ratifying the treaty which peace for methods of war, but that we shall do so only under assurances of no infringement of our constitution and our traditions.

"The inflexible attitude of the President and his supporters and of Senator Johnson and his supporters has brought this issue into the election at an immeasurable moral and economic cost to our country and to the world. If the Republican party, however, is to voice the will of the people and is not to forfeit the certainty of leadership in the next four years, it must embrace the great opportunity which the majority of the American people are prepared to give it. It must support the league with reservations. It must not fall into the trap that the President and Senator Johnson are enticing it into.

"A league for the reduction of armament and the prevention of war is not the property of any one party. It was early enunciated by Theodore Roosevelt in his address in 1910, following the award to him of the Nobel Peace Prize and has been consistently advocated by Republican leaders ever since that time. Furthermore, the one league that the world has now evolved after all the sacrifice of five years has been adopted, under proper safeguards to the United States, by the majority of the Republican Senators, the great leaders of the Republican party and various state platforms, and has already been joined by twenty-eight nations.

"I, therefore, hope that the more than a thousand clubs that have sprung up in the country advocating

NUXATED IRON

For Red Blood, Strength and Endurance

THINK of the strong, healthy men and women you know—people who are prominent and who are doing things worth while and you will find that they usually possess remarkable force, vim and energy—the kind that simply brim over when the blood is filled with iron. Iron is red-blood food—it helps put strength and energy into the veins of men and roses into the cheeks of women. Nuxated Iron by enriching the blood and creating new blood cells strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and endurance into the whole system.

If people would only keep their blood filled with strength-giving iron by taking Nuxated Iron when they feel weak, run-down and nervous, they might readily build up their red-blood corpuscles and quickly become stronger and healthier in every way. Unlike the older inorganic products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. Nuxated Iron often increases the strength and endurance of weak, delicate people in two weeks' time. It is dispensed by all good druggists.

my name at the Chicago convention will in addition to the primary task they have undertaken continue to keep to the forefront their real purpose of right alignment of the party on the many issues before us, and that they will use their utmost influence that the Republican platform shall endorse the prompt ratification of the treaty and approve the reservations."

SWITZERLAND VOTES DOWN GAMBLING

Special correspondence to the New York Tribune, of May 23, gives details of the nation-wide election in Switzerland of March 22, which sustain the victory of the opponents of the proposed law giving the federal government power to regulate the conditions of work throughout the confederation. Subordinate to this, perhaps, in general interest, but certainly surpassing it in its appeal to the man in the street, were the two projects submitted to the electorate relative to changing Article 35 of the Swiss constitution, which relates to the matter of gambling houses. The constitution of 1874 had outlawed gambling in Switzerland; but various "interpretations," including one which opened the door of gaming enterprises which furthered "recreation or public utility," had drawn the teeth of the prohibition.

Two propositions came before the voters. One was to forbid the opening of new gambling houses in Switzerland, and to allow five years for the suppression of those now existing. The alternative was to prohibit the future establishment of gaming halls, but to delegate to the several cantons the problem of fixing the fate of those already existing.

Feeling on this question was intense, if one-sided. All of the stock arguments against gambling were marshaled by the protagonists of the first law (which ended all public gambling in five years). They drew pathetic pictures of the flower of the nation being enticed into the gambling houses by the alluring clink of the gold (a slight error, since there is gambling only with silver in Geneva's principal gaming house), and of the ruination which would be brought upon the coming generation if it were not protected against evil influences.

In Geneva, of course, all of this was directed at the Kursaal, a combination theater, dance hall and gam-

bling house, which occupies a prominent position on the lake front.

Nevertheless, the anti-gambling element triumphed gloriously, by a vote of 276,021 to 223,122. They voted down the alternative, on which they heaped especial scorn, by the tremendous figure of 345,327 to 122,240.
